

Letter IN OPPOSITION
S.5474 (Rivera) / A.6058 (Gottfried)

I am opposed to a "Single Payer" health care system that would replace New York's current health care system. As pandemics, inflation, immigration, and other social issues confront business owners and employees alike, a "Single Payer" system would require a **huge tax increase while limiting individual preferences, disrupt interest rates and capital gains taxes.** These issues alone are enough to be opposed to a "Single Payer" system.

S.5474/A.6058 is too impractical and would bring New York State close to financial disaster. Instead, let us work together to build a stronger state economically for the benefit of all.
